Response to notice of non-compliant amendment

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir,

This submission is filed responsive to notice of non-compliant amendment mailed to applicant July 1, 2005.

Applicant hereby submits the demanded claim section. Applicant however respectfully directs the Office attention that the last amendment was filed over two years ago and that the substance of that amendment proved sufficient for two restriction requirements and for one office action on the merits.

The Office failed to provide any guidance whether the fact that the claims filed June 13, 2003 should be marked as 'amended' in accordance with their status over two years ago, or if the fact that they have been entered and acted upon changes their status to 'previously presented'. Applicant therefore resubmitted the claims section with the previous marking, including 'currently amended', 'new', and any corrections made in June 2003. Applicant respectfully requests that if the presently refilled two year old claims should be marked differently the office will provide the necessary corrections.

Applicant further protests that as the original amendment was sufficient for two restriction requirements and for one office action on the merits, the request for resubmission at this time was inappropriate.

Respectfully submitted
